# WARD-BELMONT SCHOOL

---

WARD-BELMONT makes no statement which she is not prepared to make real to the earnest, painstaking student. Her catalogues are published to give definite, trustworthy information, and they embody the same fine principles of sincerity, truth, and honor which she earnestly attempts to inculcate in her students.

## HISTORICAL SKETCH

Ward-Belmont is a union of Ward Seminary and Belmont College. Ward Seminary was founded in 1865 by William E. Ward, D.D., and Belmont College was founded in 1890 by Misses Ida E. Hood and Susan L. Heron. In June, 1913, the two schools were united on the Belmont campus under the charter name, "The Ward-Belmont School." Ward-Belmont is not forgetful of her past; she honors her founders, she reveres the two parent schools, and points with pride to that long line of graduates and students who have gone out into life's service, and whose happy memories and genuine affection for the old schools now bind them to the new.

A record of long service in a national field constitutes the richest heritage and the real asset with which Ward-Belmont pursues her new and larger life.

## NASHVILLE AND ITS ATTRACTIONS

Nashville has an enviable record as a historical, educational, and cultural center.

The chosen location of great universities, professional schools, colleges, and preparatory schools, Nashville has established a far-famed reputation as a center of learning. Ward Seminary and Belmont, through their long and honored careers, have contributed much toward winning for the city of Nashville her merited title of "The Athens of the South." These two schools, in coöperation with Vanderbilt University and George Peabody College for Teach-

ers, have given a distinct charm and atmosphere of culture which makes this city an ideal home for students.

On an imposing eminence the State Capitol stands, an interesting example of classic architecture. In its grounds is the tomb of President James K. Polk. Located at a central point in the Centennial Park is a facsimile of the Parthenon, true in every detail. On one of the many beautiful drives and car lines is Belle Meade, for many years a celebrated stock farm. Twelve miles from Nashville is the Hermitage, the home and burial place of Andrew Jackson, President, statesman, and warrior. Not far from the Ward-Belmont campus is the battlefield of Nashville, and near by stretches the scene of the battles of Franklin and Stones River. Within a few hours' ride are Lookout Mountain and Mammoth Cave. Nashville is within easy reach of all the historical points of Tennessee.

In addition to the cultural advantages offered by Nashville through its educational and historical interests, an opportunity is given by the city to hear many of the most famous artists, readers, and lecturers. Nashville thus affords the means for acquiring a most liberal culture.

## THE CAMPUS

Ward-Belmont stands in the beautiful hilltop park formerly owned by Belmont College, and to both the grounds and buildings handsome additions have recently been made. The campus, containing thirty acres, is surrounded by one of the best residence sections of Nashville. Embowered in trees and shrubs which represent the artistic planting and cultivation of sixty years, this naturally picturesque park makes a campus of unusual beauty. It is sufficiently removed to give that quiet and seclusion which are conducive to studious habits; yet the railway station, the shopping districts, and the churches of all denominations in the city are easily accessible by car. The site is on the highest elevation in the Vanderbilt University and the Peabody College sections, and is within easy walking distance of either.

## CLIMATE AND HEALTH

The bracing atmosphere and temperate climate of Middle Tennessee make Nashville an ideal location for school

work. Pupils from more northern States, as well as those from farther south, find here a school home unexcelled in physical advantages. The mild weather and the inviting campus encourage outdoor sports and games, which have contributed much toward maintaining the phenomenal health record of the school.

Ward-Belmont realizes just how much the health of its students depends on physical conditions, and safeguards their health in every possible way. The buildings are sanitary; the drinking water is filtered, sterilized, cooled, and is supplied in hygienic fountains throughout the buildings; a trained and experienced nurse has charge of a well-ordered infirmary. Though the school has been singularly free from communicable diseases and has never been visited by an epidemic of any kind, yet an isolation hospital is maintained as a guard against such an epidemic. A further precaution is the requirement that a certificate of good health be furnished by every resident student.

Ward-Belmont realizes that in order to reach the best mental as well as physical results, one must have good, nourishing food. Especial care is paid, therefore, to the meals and their preparation. The kitchen and bakery have the latest improvements in steam cooking, gas and electric appliances, and cold storage; the dining hall is commodious and attractive. The menus are supervised by a trained dietitian. A diet table under the supervision of this dietitian is maintained for those whose health requires it.

In addition to the physical safeguards and the abundant supply of wholesome, nutritious food, the regular habits and ordered life of the school, and physical culture scientifically adapted to the student's individual needs, are potent factors in promoting the excellent health record of Ward-Belmont.

## BUILDINGS AND EQUIPMENT

The plan of the buildings is that of a quadrangle with one open side. On the north side of this square is the main building, consisting of the drawing rooms, the auditorium, the dining rooms and four dormitories; on the east, two other residence halls, Pembroke and Heron Hall; and on the south, the Academic Building. In addition to these there are three cottages—Heronholm, Leftwich Lodge, Rose

Cottage—several small buildings used for music practice and art crafts, the green-house, and at greater distance the isolation hospital and the heating plant. The buildings are handsome and commodious, and are models in their adaptation to school use. They are fitted with the most improved methods of sanitation, heating, lighting, ventilation, and fire escapes.

The Academic Building, in classic colonial architecture, was completed and equipped in 1914 at a cost of \$150,000. In this building are the large, well-lighted classrooms, the library, the science laboratories, the expression and art studios, an assembly hall, and the administration offices. The library contains about six thousand volumes. Under the care of experienced attendants, it is open at practically all hours. With its well-chosen books of reference, with its reading tables supplied with standard magazines and daily papers, it is an inviting spot to the casual reader and the serious student. This building also contains a white tiled swimming pool, and a gymnasium well equipped with apparatus, showers, dressing rooms, and lockers.

Since the dormitories are entirely separate from the classrooms, they have a quiet, homelike atmosphere. The residence halls are all practically new, freshly furnished, and in their arrangements meet every demand of comfortable and refined home life. There are ample sanitary appointments and baths on every floor, while in Pembroke and Heron Halls, which are arranged in suites, there is a bath between the two rooms of each suite. Each room accommodates only two girls, and is furnished with a rug, bureau, table, chairs, single iron beds, and, with few exceptions, separate closets. All the rooms have outside exposure, with abundant sunlight and fresh air.

Interested parents are requested to visit Ward-Belmont, as only a personal inspection can give an adequate idea of the way in which the comforts of a well-ordered home have been combined with the essentials of a well-equipped school.

#### EDENWOLD

In addition to the main campus Ward-Belmont has a farm of about 600 acres in the beautiful blue grass region near Nashville. The farm, Edenwold, is ten miles from the

school, but is easily accessible by street car and train. The farm house—built over 100 years ago, but recently remodeled—will be used as a club house for Ward-Belmont girls. From the veranda of the old mansion there is a magnificent view of the surrounding country with its rolling acres of rich farm land and the wooded hills as a background in the distance. The farm faces the Cumberland River for about a mile.

Edenwold serves a double purpose; it is an ideal place for school outings, and furnishes products of the farm and dairy for the school table.

### FACULTY

While Ward-Belmont has continual pride in her location, buildings, and equipment, yet she is ever conscious of the fact that the real strength of any school must lie in its teaching force. Ward-Belmont spares no expense in selecting her faculty, and in the various départements are men and women of the highest ideals who have been educated in standard colleges and universities of this country and abroad, and who have had successful experience in the classroom. In the literary work, in Music, Art, Expression, Home Economics, and in Physical Education, the same high standards are upheld. Ward-Belmont believes that true education is character building, and selects her faculty with this in mind. That the inspiration from personal touch between teacher and pupil may be kept constantly at the maximum, the school maintains the approximate ratio of one teacher to ten pupils. Ward-Belmont is characterized by cordial friendship and sympathetic interest in the attitude of the faculty toward the students in all the activities of the school.

### HOME LIFE

The President and his family and many of the teachers live in the residence halls, and their presence as constant advisers and sympathetic friends contributes much to that spirit of comradeship and good cheer so evident in the school. Constant appeal is made for sincere coöperation on the part of every student in maintaining wholesome standards of school living on the principle that kindness and confidence are more efficacious than stringent rules.

The effect, therefore, is not one of repression, but of self-restraint, resulting in that character development which comes with a growing sense of obligation. Handsome parlors, attractive corridors, inviting rest rooms on every hall, and the unusual feature of a roof garden for recreation, all attest the care with which the home comforts and pleasures have been anticipated.

### SOCIAL CLUBS

Ten clubs with a membership of thirty to fifty each are a pleasant feature of the social life of the school. Membership in the club is optional; every student has an opportunity to join. They meet formally once a week for social, literary or musical programs, and informally at other times for recreation. A spirit of loyalty in the clubs develops in the students the best qualities, mental and moral as well as social.

### RELIGIOUS ACTIVITIES

The Christian homes all over the land are sources from which our students come. Though no sectarianism is lived or taught, every effort is made to stimulate and strengthen the impulse toward Christian life and service. Regular Bible courses form part of the curriculum, and there is an active Young Women's Christian Association in which the members of the faculty coöperate heartily with the students. The Association and the school jointly employ a trained and experienced secretary, who devotes her entire time to Y. W. C. A. work. The Sunday School conducted by members of the faculty, systematic Bible training and mission study, daily devotional exercises at chapel, and frequent visits by the pastors of the city, are among the agencies by which the school life is made wholesome and inspiring. The spirit of church loyalty is fostered by requiring each student to attend the church of her choice on Sunday morning.

### DRESS AND HOUSEHOLD ARTICLES

Extravagance and extremes in dress are firmly discouraged. Every boarding pupil is required to have as the school uniform a plain tailored suit, either of dark blue or of black. This suit may be purchased before coming to

Nashville if a patron so desires. A sample of the shade of blue that is to be used will be furnished on request. As a part of this uniform are to be worn a white waist, black shoes, and a black hat simply trimmed with black ribbon or velvet, without flowers, feathers, or any color. This suit must be used for street and church and on all public occasions. No uniform is required during the school day, but the clothing worn should be simple and suitable for school use. All boarding pupils are expected to provide themselves with bath robe, bedroom slippers, laundry bag, hot-water bag, umbrella, raincoat, overshoes, thick walking shoes, a comfort, pair of blankets, napkin ring, dresser and washstand scarfs, and one trunk cover. Trunks must be marked with full name and home address. All articles to be sent to the laundry must be clearly marked with the full name of the pupil. An abundant supply of table napkins, towels, sheets, pillowcases, and bedspreads is furnished each student at a charge of six dollars for the year.

## LECTURES AND ENTERTAINMENTS

The presence in Nashville of great universities and professional schools insures the coming of famous lecturers and entertainers. Lectures on a great variety of subjects, free to the student body, are delivered during the year by men and women who are experts on the themes they treat. Artists of international reputation are frequently brought to the city by Ward-Belmont and other organizations. In recent years Ward-Belmont students have heard the following, among other notable people:

Lecturers—President Arthur T. Hadley, E. E. Barnard, Leon H. Vincent, Emil G. Hirsch, Russell H. Conwell, William Hawley Smith, Lorado Taft, William J. Bryan, President W. H. ## EXCURSIONS

Nashville has an interesting historical and geographical setting. Every year our pupils are given opportunities to visit the historical places of interest in or near Nashville. It has been the custom to take a yearly trip to Washington and to visit en route Lookout Mountain, Natural Bridge, Luray Caverns, Norfolk, Portsmouth, and Virginia Beach. Such a trip was taken in 1917 on the occasion of the presidential inauguration; the party visited all the points mentioned, including New York and Niagara. Similar opportunities will be offered during 1917-18. An Eastern or Southern trip will also be made during the Christmas holidays, if a sufficient number of pupils apply for it. In the past we have had school parties spend the vacation in Europe. As soon as conditions permit these European tours will be resumed.

## MUSIC, ART, AND EXPRESSION

In the education of girls and young women, it is important that a proper balance be maintained between Literary subjects and the Fine Arts. In this way only can a woman be prepared best for her mission in the world. The work of the school in the Liberal Arts is of the highest order, and equal emphasis is placed on Music, Art, and Expression in all their branches. Frequent music recitals of the highest order tend to develop an appreciation for that which is best in this rich field. Students are always made welcome to the Art studios and the kiln, and special receptions are given to cultivate a love for the beautiful in color and form. In the School of Expression a weekly class lesson in Poise and Speaking Voice is offered to all boarding students without extra charge. Attractive studios and an inspiring environment make the work of these departments a genuine delight. The teachers represent the best culture

and training of this country and Europe. They have established an enviable reputation for Ward-Belmont as one of the distinct centers for the training of young women in these subjects so important in the development of æsthetic taste and temperament.

### HOME ECONOMICS

The lifting of the home maker's work to its proper place among the sciences is perhaps one of the most significant recent educational reforms. Domestic Science and Domestic Art are now regarded as essential in a well-rounded education for women. Responding to this progressive movement, Ward-Belmont maintains a thorough department for the study of the home and its varied problems. A building is specially equipped and set apart for this purpose. A weekly class demonstration in Domestic Science, or a weekly lesson in Household Decoration, is offered to all boarding students without extra charge. With its comprehensive courses, its attractive and well-equipped laboratories, and with its able corps of teachers, this department of practical worth holds an established place among the most popular activities of the school.

### RED CROSS COURSES

Realizing the peculiar situations of this year, the United States Bureau of Education has said in one of its letters: "Classes giving practical instruction in home care of the sick should be organized for all women students, and the most recent knowledge concerning the care of infants and children should be available to them. Special attention should be given to diet requirements for maintenance of health and efficiency; methods of eliminating all waste from the household; and intelligent use of the more abundant foods for those which are either scarce or of better keeping qualities."

In order to meet these unusual needs, Ward-Belmont is offering special courses in First Aid, Home Nursing and Dietetics. The work is conducted by government nurses and dietitians, and the regular government examinations will be given. The course will continue throughout the entire session and will be divided into four parts—First Aid, Home

Nursing and Elementary Hygiene, Surgical Dressings, and Dietetics.

Credit in the regular course will be given on this work.

## PHYSICAL CULTURE AND PLAYGROUND SUPERVISION

Thorough courses are offered in Physical Education and in Playground Supervision, subjects which are being emphasized to-day as never before in education. The campus affords opportunity for outdoor games, the gymnasium is so equipped that exercise may be adapted to the individual needs of the pupil, and the swimming pool is modern at every point and free to all resident students. Trained teachers are in charge of every feature of this department. The work in Playground Supervision is so planned that the students enjoy the recreation, and at the same time grasp the methods by which directed play may be made to promote health, stimulate the intellect, and lift the moral tone of any community.

A Normal Course is offered for pupils who wish to prepare to teach Physical Training.

## COURSE OF STUDY IN LIBERAL ARTS

Ward-Belmont offers a six-year Classical Course, corresponding to the four years of a preparatory school and the Freshman and Sophomore years of a standard four-year college. A student who contemplates entering a certain college or university after the completion of the Classical Course should so advise the Dean in advance, that the subjects which she takes in Ward-Belmont may be those required by that institution.

The General Course, of equal length, is provided for the larger number who do not intend to do further college work after graduation from Ward-Belmont. In this course more liberty in choice of subjects is allowed. With certain limitations, Music, Art, Expression, and Home Economics may be included and counted toward graduation.

Ward-Belmont also grants a First-Year College Certificate, either Classical or General, for the completion of prescribed courses of study corresponding to the four years of high school and one year of college. These certificates

are intended primarily for students who for some reason see fit to end their study with one year of college work.

At the end of the first four years of the course, corresponding to the high school period, students may earn either the College Preparatory Certificate or the High School Certificate, provided the proper balance has been maintained by the completion of courses prescribed. The College Preparatory Course is offered for students who expect to complete the Classical Course. Those earning the Certificate for the completion of this course may be admitted without examination to the leading colleges and universities. The High School Course is intended for students who plan to complete the Ward-Belmont General Course. It is somewhat less technical than the College Preparatory Course, yet a balance is maintained which assures a broad and deep cultural foundation.

### ADVICE ON CHOICE OF SUBJECTS

It is our desire that the courses of study be clearly understood by parents and prospective pupils. Again, it is important that each pupil's course be carefully planned on the basis of work already completed, and that individual tastes and aims be taken into account. To accomplish these ends, correspondence and personal conference with the Dean are cordially invited. Prospective patrons are urged to cooperate with us in working out a course of study in advance of the opening days of the session in order to allow more deliberate consideration of individual needs. Plans so made can be modified, if it seems desirable to a patron, on the opening days of school; but further changes during the year are usually not allowed. Continuity of effort and the greatest advancement can in this way be secured.

## HISTORY AND APPRECIATION OF ART

The value of the work in this course is twofold. It is a part of the record of human development, and so a humanitarian and mental discipline subject, as is History proper. It is also a study of the laws underlying artistic effect, and as such has a distinct culture value. Both phases of the subject receive careful consideration. The work is done by means of illustrated lectures, printed outlines, reproductions, stereopticon slides, projectoscope, etc. Extensive reading and individual reports required.

## ADMISSION TO LITERARY COURSES

Students who have completed the usual grammar-school grades, or who have finished the course of the Ward-Belmont Intermediate School, may be admitted without examination to the Freshman Class, or first year of the College Preparatory Course. Those who present credentials from approved College Preparatory Schools, High Schools, or Colleges may be admitted without examination, on probation, to the classes for which their former work seems to have prepared them.

### POINTS

1. *Definition:* A point in a literary subject represents five periods of forty-five minutes each per week for a year in Freshman, Sophomore, Junior, and Junior Middle Classes, and four or five periods a week for a year in the Senior Middle and Senior Classes. Two or three periods a week for a year, or full work for one semester in which a course is completed, counts a half point. In Music, two lessons per week and one and a half hours' practice daily merit one-half point; in Theory, Harmony, History and Appreciation, Ear Training, each two periods per week, one-half point each; in Art, ten hours of studio work a week, one point; in Expression, five periods of prepared class work, and other collateral and assembly work each week, one point; in Home Economics, two lectures and two double laboratory periods per week, one-half point.

# W A R D - B E L M O N T

---

2 *Number Recommended:* The number of points recommended for the average student is four; the minimum requirement of work is represented by three.

3. No single point in a language, except French A, German A, or Spanish A, may be counted toward a certificate or diploma, and two of these courses may not be counted in the same year.

4. Not more than a total of four points in Music, Art, Expression, and Home Economics may be counted. Only one such point may be counted in a single school year. Credit for Theory, Harmony, or Home Economics, taken elsewhere, will be based upon examination. All other work in Music, Art, Expression, and Home Economics, to be credited in a Liberal Arts Course, must be done in Ward-Belmont, and must be approved by the heads of the departments concerned.

5. If work represented in Ward-Belmont by a college point has been done elsewhere, but not in college, an elective preparatory point will be allowed; college credit will not be allowed, unless sufficient supplementary work is done in Ward-Belmont to make it equal to the corresponding College Course.

6. For a Ward-Belmont Diploma, at least eight of the required points must have been earned in Ward-Belmont. In the case of a student who has done equivalent college work elsewhere, exception to this rule may be made under the following conditions: Official testimonials as to such work and a catalogue of the college, with the work done fully designated, must be furnished to the Dean. The credit due, in no case more than four points, will then be determined.

## CLASSIFICATION

The number of points of work completed at the beginning of a school year determines the class to which a student belongs. Four completed points, as found in either of the two courses outlined, give Sophomore classification; eight such points, Junior Middle. If a student lacks not more than one of the required number of points, she will be given conditional classification.

For Senior Middle standing, fifteen completed points in one of the courses outlined, including all the required points except one through the Junior Middle year, are necessary. Completion of a regular course of a standard four-

year high school will ordinarily meet these conditions. If so, such work will entitle a student to Senior Middle standing in Ward-Belmont.

For entrance to the Senior Class, the attainment of a Ward-Belmont Diploma at the end of the school year must be possible.

## II. SCHOOL OF EXPRESSION

This department offers to the special and general student an opportunity for thorough and scientific training in Expression. Its aims are: To help the student to "find herself" and to realize her powers and possibilities; to give such training as will develop her individuality; to train the voice and body to act in coördination with the mind; to teach the student how to think sanely and strongly, how to read intelligibly and effectively; to teach her to represent a character without effort; to prepare young women for effective work as readers and teachers of Expression.

A weekly class lesson in Voice Training and Poise of Body is offered to all boarding students without extra charge.

The work of this department is arranged below to cover four years. The Special Certificate in the School of Expression is awarded to those who complete satisfactorily the first two years of the prescribed course, and the Diploma is awarded to those who complete satisfactorily the first three years of the course.

Expression IV to VIII are designed for students interested in advanced creative and interpretative work, methods of teaching, platform art, and pageantry. Diploma pupils will be given advantage of as much of this training as their time and advancement will allow.

### III. SCHOOL OF ART

The creative power, which, in a greater or less degree, is the possession of every human soul, should be recognized and cultivated, and that appreciation developed which is the beginning of all growth of Art. The study of Art involves the training of the eye, mind, and hand, and that exercise of both skill and judgment which makes for power in an individual and creates efficiency, no matter what the calling may be. Thus understood, the study of Art should have a place in every liberal education. The Ward-Belmont studios are in the new Administration and Academic Building, and embrace five large rooms with excellent light. Students of college advancement, specializing in Art, are seriously advised to elect History and Appreciation of Art as one of their literary subjects. In every branch of the School of Art the object is to make the pupil proficient and to give her a foundation upon which she can build. The methods of instruction are varied, and are such as have been found to be the most efficient in developing the possibilities of each student, and in giving her the means of artistic self-expression.

An Art Certificate is awarded to students who have done serious work in at least three of the courses offered below, including Designing; who have completed the equivalent of English A and B; and the quality of whose work, as judged by a committee of five, is of such high merit as to warrant this special distinction.

#### STUDIO CLASSES

*I. Elementary.*—The first steps in the appreciation of form, proportion, and values are taken in this course. The work is done in charcoal from simple still-life studies, which enables the beginner to learn the principles of drawing, the foundation of all art expression.

*II. Life Drawing.*—The costumed model is used daily in the life drawing class. After becoming familiar with their materials, students are encouraged to begin work in this most interesting branch of Representative Art. The models are posed to help the pupils in the study of both composition and illustrations, and studies are produced in all the different mediums—oil, water color, chalk, pastel, pen and ink, charcoal, and clay. Quick sketching is practiced frequently, and is most beneficial for all students; and for those making a specialty of illustration, it is essential training in character drawing.

*III. Clay Modeling.*—Clay modeling is taught by the use of casts

and living models. Casts are used as models for the beginner; and as skill is gained, work from the life model is encouraged.

IV. *Etching*.—A studio well equipped with a hand press and all the conveniences for etching enables the advanced student in drawing to apply this knowledge in a practical way and to enjoy this most fascinating and attractive form of Art. The beauty of line and tone is expressed in landscapes as well as in sketches from the life model, the colored inks giving a charm and variety to the many prints made from one plate.

V. *Pen Drawing*.—Pen drawing is of special use to those desirous of becoming illustrators. A good foundation in drawing and values is necessary. Use is made in this class of casts, still life, flower studies, and costumed models.

VI. *Outdoor Sketching*.—The campus offers ample opportunities for outdoor sketching. Application is made of the principles of composition, values, perspective, and color.

VII. *Design*.—One day in each week instruction is given in the fundamental principles of design. The study tends to develop original thought, stir up latent ideas, and induce activity of the imagination. This training is prerequisite to any form of Art expression, and therefore is required of all Art students.

VIII. *Interior Decoration*.—The work in interior decoration is designed to meet the needs of those who wish to plan their houses conveniently, decorate them with suitable colors, and select and arrange the furniture artistically and usefully. The principles of mechanical drawing, the theory of color, and periods in furnishing are studied. The pupils work out various problems in the arrangement and decoration of rooms.

IX. *China Decoration*.—China painting may be undertaken by those who are sufficiently prepared in drawing and design. Students capable of passing an examination in drawing will be excused from further work in this line. The study of design is required in all classes.

X. *Metalry*.—The course in metalry embraces practical training in the application of design, a knowledge of the use of tools, metals and stones. Various processes of handling metals are taught. Work is done in copper, brass and silver.

XI. *Pottery*.—The workers at this craft find all the facilities for producing a high grade of Pottery. The ware is made in all the various ways known to the potter, hand-built, poured, thrown, and turned. The decoration and glazing is an exercise of the taste and ability of the student. While beginners are furnished with a good clay, carefully weighed and mixed in the Pottery, and a well-fitted glaze which gives satisfactory results, ample opportunity is given for any student who desires to make a thorough study of both clays and glazes.

A large, two-burner, Revelation Pottery Kiln is used for firing.

An Electric Motor supplies the power for throwing and turning wheels, and a pebble mill for the grinding of glazes. An air tank carrying a hundred pounds' pressure provides, by use of the sprayer, an easy and simple method of applying the glazes.

These appliances, with all the numerous tools, plaster boxes, slabs, setters, etc., furnish a well-equipped studio that could not fail to delight a Potter.

#### IV. SCHOOL OF MUSIC

The Ward-Belmont School of Music possesses the combined virtues of the Belmont School of Music and the Ward Conservatory, both of which had long been the objects of the high praise and the generous patronage of educated musicians both in and out of Nashville. It is more than a complete modern Conservatory of Music; it offers to music students what all of them need—supplementary work in English, French, German, and Literature. The “mere musician,” the talented player or singer who lacks general education, will be to-morrow more than ever before at a disadvantage, and will be regarded as just so much less a musician. The best musical educators are agreed that general mental discipline should not precede, but should continuously accompany, musical studies; and schools of music are seeking what we have already at hand—intimate affiliation with literary classroom work. Under our system, musical study and practice are not allowed to suffer or be crowded out, but the student is shown how she may become both a cultured woman and a thorough musician. Our musical faculty is now probably the largest and most expensively maintained one in any school for girls in America. No teacher is chosen who has not had the best of advantages, most of them in both this country and Europe, teachers who have supplemented graduation from the leading conservatories with years of special study under the recognized masters of two continents. All of them are tested teachers. No novices are employed. Pianoforte, Voice, Violin and other stringed instruments, Pipe Organ, Theory, Harmony, Composition, the History and Literature of Music, Interpretation, Ear Training, Sight Reading and Chorus, Ensemble and Orchestral Work, Repertoire and Memorizing, and Faculty, Student, and Artist Recitals—all, and more, take their appropriate places and contribute to the creation of

a wholesome and inspiring musical atmosphere. Such an atmosphere is possible nowhere except in a large school where musical education is seriously undertaken by a faculty composed of tested professional musical educators. Frequent student recitals are given, as are recitals and lectures by the faculty and other eminent musicians. Pupils may attend the best concerts in the city. Operas are frequently given by excellent companies, and the world's greatest artists appear in Nashville from time to time. The immediate and convenient value of these advantages at our own door will be the more apparent when it is known that our students may have throughout the season the great musical entertainments, but a very few of which other Southern schools can enjoy, and these only by means of travel and additional expense from the smaller towns into the city. Certificates and diplomas are conferred for finished work in this school.

Eighty new pianos, including eight Steinway Grands and a Steinway Duo Art Pianola-Piano, have been purchased within the last few months.

Boarding students specializing in Music, Art, Expression, or Home Economics are required to take at least one literary course.

Theory is required of all music students in the boarding department who have not previously completed the equivalent of Theory I. Credit for Theory I, if taken elsewhere, will be granted only on the basis of an examination. Those who have such credit must select one of the following: Theory, Harmony, Counterpoint, History and Appreciation of Music, Ear Training, Pedagogy.

## HISTORY AND APPRECIATION OF MUSIC

*Course I.*—This course, dealing with the evolution of music and offering invaluable aid to musical understanding and appreciation, is designed to acquaint the student with the most important events in the progress of the art and to show its relation to the kindred arts. The work consists largely of lectures, supplemented by material from text, collateral reading, notebook work, reports and digests of lectures upon related musical topics. The following subdivisions are considered: Pre-Christian Music; the Christian Era to the Contrapuntal Schools; from Lasso and Palestrina to Handel and Bach; the Contrapuntal, Classical, Romantic, and Modern Schools of Composition. Numerous illustrations are given in the classroom by members of the Faculty and by means of sound-reproducing mechanisms. Lectures upon the following subjects are also included: "How to Listen to Music," "The Sonata Form," "The Symphony Orchestra," "The String Quartet."

Open to students above the Sophomore year. Two periods a week.

*Course A.*—This is a continuation of the first-year course. A more extended and critical survey of the music by the great masters of the nineteenth century is made, and the tendencies of present-day musical art are considered at length. Special emphasis is placed upon a more elaborate study of the Opera and the modern schools of composition. In addition to a critical and biographical study, the works of the composers are considered, examined, and analyzed as regards their methods of construction. Programs of visiting artists are studied, and the subject of musical æsthetics is considered.

Open to students who have completed the first course, and by permission to any advanced music student. Two periods a week.

## W A R D - B E L M O N T

---

*Course B.*—This course is more especially designed to meet the needs of all students, not necessarily music students, who wish to become acquainted with the rich field of musical history, and to develop an appreciation of that which is best in musical literature. The work done is practically equivalent to that of Courses I and A.

Open to College students. No musical prerequisites. Four periods a week.

### THEORY

*Course I.*—In order to provide fitting instruction in the first essentials of music for beginners, or pupils who have pursued musical instruction but for a short time, a special theory class is organized in which the necessary rudimentary knowledge may be acquired. The pupil is taught the rudiments of music by keyboard and blackboard work, which supplements the music lesson and greatly aids and stimulates progress. A thorough knowledge of the material covered will be found of invaluable aid in many practical ways—stimulating the pupil's progress and furnishing a musical foundation, without which advancement in the acquiring of a musical education is impossible. Training is given in Notation, Signs, Scale Formation, Keys, Meter, Rhythm, etc., the aim being to familiarize the pupil with the essentials of musical knowledge.

Two periods a week.

*Course II.*—This course is a continuation of the first course in elementary theory. It is open, however, to more mature music students who have had no previous theory work. The work consists of material from text, music writing, dictation, ear training. The subjects include Notation, Symbols, Meter, Scales, Keys, Intervals (harmonic and melodic), Terms, Elements of Form, Embellishments, Abbreviations, etc.

Two periods a week.

### HARMONY

*Course A.*—The following are among the subjects considered: Notation; Scales; Keys; Signatures; Classification and Measurements of Intervals; Ear Training; Triads and their inversions; Chords of the Dominant and Diminished Seventh, their inversions and resolutions; Cadences; Simple Modulations. The work consists of chord connections in three-part and four-part harmony, in close and dispersed position. Exercises in the harmonization of melodies in four parts and from figured and unfigured basses are presented. Practical applications are made at the keyboard. Simple compositions are analyzed with reference to tracing the material studied.

Open to students who have completed Theory II, and by special permission to any college students well advanced in music. Two periods a week.

*Course B.*—Secondary and Diminished Seventh Chords; Chords of the Ninth; Chromatically Altered Chords; Augmented Chords; Cadences; Extraneous Modulation; Suspensions; Passing and Changing Notes. Organ Point; Form, Analysis. The work consists of

written exercises involving the harmonization of melodies, chorals, figured and unfigured basses; original work and the analysis of material from the great composers. Treatises referred to include those of Chadwick, Norris, Foote and Spalding, Prout, Goetschius, Jadassohn, Reber, Dubois, and others.

Prerequisite, Course A. Three periods per week.

## COUNTERPOINT, FORM, COMPOSITION

*Course A.*—To those who have completed the regular work in Harmony a special course in Counterpoint, also in Form and Composition, is offered, and at the end of the year such pieces as are considered of sufficient merit will be performed in concert.

## EAR TRAINING

Discriminative hearing is indispensable to a musical education, and must precede or accompany all lines of music study. The aim of this course is to teach the pupil to think in tones and to so train the ear and the musical feeling that one may learn to sing, name, write, and play what is heard; and to recognize and appreciate not only the melodic effects of music, but the harmonic and rhythmic also. No other branch of music study will be found so helpful in the acquiring of proficiency in reading and hearing music as that of ear training.

## CERTIFICATES AND DIPLOMAS

Pupils desiring to become candidates for Certificate and Diploma must announce themselves through their respective teachers not later than October 20th. Preliminary examinations will be conducted by a committee of five, composed of the Director, the teacher under whom the pupil is studying, a member of the faculty appointed by the Director and two others appointed by the President. No pupil will be considered a candidate for Certificate or Diploma until recommended by this committee.

Candidates for Certificate and Diploma must appear in public recital at least three times during the session.

There will be held in the presence of the faculty, between February 1st and 15th and between May 1st and 15th, examinations on the requirements for Certificate and Diploma conducted by the examining committee. A two-thirds vote of the faculty is necessary to decide whether the candidate has met the requirements satisfactorily.

## VI. PHYSICAL EDUCATION

The building of the body, its training for both utility and grace, and its protection from disease and weakness, make the department of Physical Education one of the greatest importance. The gymnasium, the swimming pool, the tennis courts, the basketball, hockey and athletic fields provide ample equipment for conducting this important work. The swimming pool, twenty-three by fifty feet, is constructed of white tile, and equipped in most modern fashion for convenience and sanitation. Physical training is given free of charge to boarding students, and is required of them for at least two periods a week in every year. A physical examination is given each boarding student at the beginning of the session, and a record is kept of the condition of the individual. From this record each student is advised as to when to take exercise, and the kind and amount best suited to her needs. All work is done under expert supervision.

The work of this school includes the various phases of Physical Education. Practical gymnastics, gymnastic games, folk dances and games, and fencing form an important part of the indoor work. The value of aesthetic dancing as a means of acquiring grace and bodily poise has been recognized of late years. Another and very important branch embraces practical work in outdoor games, basketball, hockey, and field sports. Because of the greater hygienic value of outdoor exercise, fully two-thirds of the work is done in the open. Frequent opportunities are afforded for horseback riding. Throughout the department the exercises are suited to the precise needs of the individual pupil, and the constant aim is to bring each girl nearer the physical ideal.

The work consists of gymnastics, folk dancing, swimming, athletics and athletic games, for which there is no charge; and of aesthetics dancing, fencing and riding, for which a charge is made. Every boarding pupil must spend three periods a week in physical training; one in gymnastics, the other two elective. Each morning that the weather permits twenty minutes outdoor exercise is required. At least six class lessons in swimming are required of all students who have not learned to swim.

No course will be considered completed by any student nor may she be graduated from any department until the required work in

Physical Education shall have been completed for each year of her attendance. In case of physical disability, the work will be adapted to the needs and capabilities of the student.

### PLAYGROUND SUPERVISION

An awakened conscience relative to child welfare and a realization of the social and economic value of wholesome recreation for both young people and adults has made the playground movement one of national importance. The demand for trained workers, both voluntary and paid, in this field greatly exceeds the supply, and makes the course one of great practical value. The course embraces the History and Scope of the Playground Movement, Playground Organization, Administration and Conduct, and the Nature and Function of Play. The practical work includes Plain Sewing, Raffia Weaving, and Story-Telling; normal instruction in Folk Dances and Games; Gymnastic and Athletic Games; Athletics and Swimming.

Open to Senior Middle and Senior students. Two periods a week.

### TWO YEAR NORMAL COURSE

In addition to the work outlined above, a two-years' course is offered to those who wish to specialize in Physical Education. It is open to students of the college department only, and as prerequisite a course in high-school Physics or Chemistry must have been completed.

Except when they are in the Nashville homes of near relatives, pupils from a distance are required to board in the school.

The management reserves the right to dismiss any pupil whose influence is felt to be bad or whose health is a menace.

Rooms in the boarding department are assigned in the order of application, and early registration is advised. Every room in the residence halls was taken last year before the opening.

With the exception of a few single rooms, which may be had at extra cost, each bedroom is for two girls, and is furnished with single beds, separate closets, and other usual comforts.

Windows and doors of residence halls fitted with metal weather strips and copper screens, thus protecting against winter cold and summer insect annoyance.

Every provision against fire—regular fire drills, fire escapes, fire extinguishers, fire hose—though there is no fire in the buildings except in kitchens and bakery.

Boarding pupils are not allowed to visit in the city, except with the approval of parents and the school management. Permission is not granted to spend the night in the city, except in the home of near relatives or that of an official of the school.

For the convenience of visiting patrons, rooming accommodations are provided in a cottage adjoining the campus. The rate for room and board is two dollars per day. No charge for the first two days.

Student body of 1916-17 represented the best homes in thirty-four States, thus affording the broadening educational advantages of a nation-wide acquaintanceship.

Practically every State north of the Ohio from New York to Oregon is represented in Ward-Belmont. Climatic conditions and

educational opportunities are such that nearly one-third of our student body now comes from the North.

Boarding students are under school regulations from the moment of their arrival in Nashville until their departure from the city. Parents should not, without conferring with the school, grant social or other permissions in the city before the student enters or after she leaves school.

A modern infirmary in the main building is maintained under professional supervision, and pupils who are too ill to meet school appointments are cared for here instead of in their bedrooms. A remotely isolated hospital is also maintained on the grounds for use in case of need.

School work, missed because of absence of reasonable length, necessitated by the pupil's illness, will be made up, if possible, under the direction of Ward-Belmont teachers, at no extra charge. Work missed for other reasons will be made up under tutors, specially provided, at the pupil's expense.

All permissions of parents or guardians should be written and addressed to the management and are subject to the approval of the management. Even during the visits of parents pupils are still subject to the rules of the school, and must meet all regular classroom or studio appointments.

The school bank, with its system of pass books, deposit slips, checks, and monthly balance reports, not only cares for the spending money of students, but teaches them how to keep a bank account, draw checks, and conduct their own financial affairs. We are not responsible for money or valuables not deposited in our vaults.

Each residence hall is in the charge of a hostess who devotes her entire time to the training of the girls of her household in such questions as appropriateness and simplicity in dress, neatness and order in the bedrooms, and is always accessible for counsel. In a word, these hostesses undertake to perform the office of the refined mother in a Christian home.

Parents and guardians are requested to coöperate with the school in securing good regular attendance. Students should be present the opening day of school and at roll call after the Christmas holidays, and should remain for the last roll call before Christmas and until the student body is dismissed on commencement day. Much educational value attaches to the commencement season, and no student should miss any part of it.

The following thirty-four States and Alaska were represented during the past year in Ward-Belmont: Alabama, Arizona, Arkansas, California, Colorado, Florida, Georgia, Illinois, Indiana, Iowa, Kansas, Kentucky, Louisiana, Maryland, Massachusetts, Michigan, Minnesota, Mississippi, Missouri, Montana, Nebraska, New Jersey, New Mexico, New York, Ohio, Oklahoma, Pennsylvania, Rhode Island, South Carolina, Tennessee, Texas, Virginia, West Virginia, Wisconsin.

## CONCERNING CHARGES AND TERMS

---

In what follows we have named the lowest terms consistent with the accommodation, equipment, and high quality of teaching furnished. We are prepared to prove to the satisfaction of the discriminating that though Ward-Belmont is, in the class to which it belongs, not an expensive school, compared with schools offering similar advantages it will be found to be several hundred dollars less expensive. The charges are for the whole school year, and reductions cannot be made if the student for any reason, except the long illness of the girl herself, is withdrawn during the year. As Ward-Belmont's rooms are much in demand before the opening, and as applicants who would take the rooms for the whole year are often crowded out by previous applicants, it is neither ethically nor legally right for an earlier successful applicant to withdraw and expect the return of fees paid or due. Hence, in accordance with the uniform custom of other reputable schools, pupils are received for the entire session or part of session unexpired at time of entrance. No reduction will be made for absence immediately preceding or following the Christmas vacation or during the first four or last six weeks of the term; nor will reduction be made for absence during other periods, unless the student is absent on account of her own illness and for at least five weeks, when we shall divide equally with the patron the loss for the enforced absence.

Ward-Belmont has no confidential terms, and no one is authorized to negotiate with prospective patrons except upon the figures and terms named in this Catalogue.

two weeks, and the charges here named are for the whole school year. The year's expenses are payable in two installments, in September and January respectively, as stated below.

An advance registration fee of \$25 should be forwarded with the application, which amount will be credited as a prepayment on the school account, but is not subject to return.

Payable \$325 on September 19, 1917, balance on January 1, 1918.

Board, etc., as above, in room in main building, with bath on hall, hot and cold water in the room, two girls in a room, each occupant .....\$500 00  
Payable \$350 on September 19, 1917, balance on January 1, 1918.

Board, etc., as above, in rooms in suites of two with private bath, two girls in a room, each occupant.....\$575 00  
Payable \$375 on entrance in September, balance on January 1, 1918.

Single rooms in suites of two with private bath, and a few single rooms with private bath not in suites, are available for one occupant each at \$650 for board and literary tuition, of which \$425 is payable on entrance.

A few double rooms with private bath (not in suites), two girls in a room, are available at \$600 for each girl for board and literary tuition, of which \$400 is payable on entrance.

Students who take work in two or more extras (the equivalent of at least two points—see page 37), and cannot find time in addition for more than the one required Literary subject will be credited with \$25 on either of the above-mentioned sums for "board, etc."

Clergymen in active ministerial work are allowed a discount of sixty dollars on the regular course and twenty per cent on extras.

Each of the above-named fees for board and tuition includes Physical Training, so necessary to health, and the modern languages—French, German, and Spanish—all of which, in practically all other schools, are charged for as "extras." Swimming, generally an "extra" elsewhere, is

also included without extra cost, as are weekly class lessons in Poise and Speaking Voice and weekly class demonstrations in Domestic Science and Interior Decoration—valuable additions to the Ward-Belmont general curriculum. Our purpose is to reduce the number of “extras” by including in the curriculum without extra charge subjects usually required for graduation and many beneficial to all students. It is thus evident to one considering these features and the vast additions made to equipment and Faculty during the last few years that the charge for boarding students is remarkably reasonable. It is the policy of Ward-Belmont to include in the regular charge abundant provision for health in physical culture, every literary requirement for graduation, and the essentials for a broad culture. The charges listed below under “Extras” are made for those who wish to specialize in the subjects named or to supplement their work along those lines.
